COURSE TOPICS:
7:30-8:00 am  Registration and Breakfast
8:00-8:15 am  Welcome and Introduction
8:15-9:30 am  Opening Session
   Celebrate Nursing: Nurse by Birth – Hero by Choice
   Renee Thompson, MSN, RN
   Every day, nurses have the opportunity to be viewed as “heroes” in the eyes of their patients, colleagues, and the public. This inspiring presentation looks at the “hero” characteristics that give nurses their power and the villainous characteristics that take that power away. Participants will learn simple strategies that nurture and grow the “inner hero” in all of us. Nurses deserve to believe they make a difference – because they do!

9:45-11:00 am  General Session
   Nursing Career Development: Career Development Tools for Nurses and Hospitals
   Louise Jakubik, PhD, RN-BC
   Navigating the nursing profession can seem like a maze. This session will outline specific nursing career development tools that are essential for not only individual nurses, but also for healthcare organizations to use in partnership with their nursing staff as they develop in their nursing careers. Discussion will include credentialing, continuing education and professional development, certification, nursing specialty professional organizations, networking, presentations, publications, mentoring, and development of a professional portfolio.

11:15-12:30 am  Concurrent Session I
   A Care of the Child with Sickle Cell Disease: Acute Complications
   Louise Jakubik, PhD, RN-BC
   But We Don’t Do Hearts: A Review of Congenital Heart Defects for the Non-Cardiac Nurse
   Susan Wade, MSN, RN, CPN, CCRN

1:30-2:45 pm  Concurrent Session II
   Pushing the Edge in Body Decoration: Piercings, Tattoos, Inserts and More
   Janice Selekm, DNSc, RN, NCSN, FNASN
   Mommy It Hurts: Nursing Assessment of Child Maltreatment
   Susan Wade, MSN, RN, CPN, CCRN

3:00-4:00 pm  Closing Session
   Sacred Cows in Pediatric Nursing
   Janice Selekm, DNSc, RN, NCSN, FNASN

Nurses find comfort in performing skills accurately as a way to demonstrate their competence in the clinical setting. This presentation will explore some of the common protocols performed on children in in-patient settings and the lack of science behind them.
